Dear Ms. Woller:

In this second submittal, we have enclosed an additional 24 letters containing 455 signatures of Anthem residents regarding the Arizona-American Water Company proposed water/sewer rate increase. Our group is continuing its efforts to inform the community and collect signatures. As previously stated, our purpose is to notify the Commission of residents' concerns as set forth in the text of the letter.

Please make these letters a part of the record for docket number W-01303A-02-0870.

Thank you for your assistance.

RE: Docket number WS-01303A-02-0870, Arizona-American Water Company Rate Increase

To Whom It May Concern:

We are residents of Anthem, Arizona, and as such, subscribers to the services of Arizona-American Water Company. It has recently come to our attention that you are looking into the pending rate increase which has been requested by Arizona-American Water Company.

We are contacting you today to express our concern over this rate increase. Based on the information we have received, we are concerned that the rate increase requested is not reasonable. Our specific concerns are as follows:

1. A substantial portion of this increase is to offset new "infrastructure" costs. It is not clear what those costs include, and we are concerned that some of the costs do not directly relate to the water and sewer infrastructure of Anthem.
2. Based on comments by AZAWC in the local newspapers, part of the rate increase is to offset past losses due to their use of overly optimistic growth forecasts for Anthem in determining their initial rates. Actual growth rates for Anthem have exceeded initial Del Webb forecasts, and build-out is scheduled much earlier than originally anticipated. These conditions should lead to greater PROFITS for AZAWC, not losses. Therefore, we have serious doubts that the real cause of AZAWC's losses has much to do with the growth forecasts.
3. There were also comments by AZAWC in these newspapers that rates could be REDUCED in the future depending on the actual growth of Anthem. We would certainly like to see a very strong commitment to future rate reduction as a condition of any current rate increase, including more specific conditions clearly spelled out by AZAWC and ACC.
4. Finally, based on comments by AZAWC in the local newspapers, it appears that AZAWC is requesting a relatively high profit margin in this rate increase.

Thank you in advance for protecting our interests and handling this matter to the best of your ability.

Sincerely,

RE: Docket number WS-01303A-02-0870, Arizona-American Water Company Rate Increase

To Whom It May Concern:

We are residents of Anthem, Arizona, and as such, subscribers to the services of Arizona-American Water Company. It has recently come to our attention that you are looking into the pending rate increase which has been requested by Arizona-American Water Company.

We are contacting you today to express our concern over this rate increase. Based on the information we have received, we are concerned that the rate increase requested is not reasonable. Our specific concerns are as follows:

1. A substantial portion of this increase is to offset new "infrastructure" costs. It is not clear what those costs include, and we are concerned that some of the costs do not directly relate to the water and sewer infrastructure of Anthem.
2. Based on comments by AZAWC in the local newspapers, part of the rate increase is to offset past losses due to their use of overly optimistic growth forecasts for Anthem in determining their initial rates. Actual growth rates for Anthem have exceeded initial Del Webb forecasts, and build-out is scheduled much earlier than originally anticipated. These conditions should lead to greater PROFITS for AZAWC, not losses. Therefore, we have serious doubts that the real cause of AZAWC's losses has much to do with the growth forecasts.
3. There were also comments by AZAWC in these newspapers that rates could be REDUCED in the future depending on the actual growth of Anthem. We would certainly like to see a very strong commitment to future rate reduction as a condition of any current rate increase, including more specific conditions clearly spelled out by AZAWC and ACC.
4. Finally, based on comments by AZAWC in the local newspapers, it appears that AZAWC is requesting a relatively high profit margin in this rate increase.

Thank you in advance for protecting our interests and handling this matter to the best of your ability.

Sincerely,

RE: Docket number WS-01303A-02-0870, Arizona-American Water Company Rate Increase

To Whom It May Concern:

We are residents of Anthem, Arizona, and as such, subscribers to the services of Arizona-American Water Company. It has recently come to our attention that you are looking into the pending rate increase which has been requested by Arizona-American Water Company.

We are contacting you today to express our concern over this rate increase. Based on the information we have received, we are concerned that the rate increase requested is not reasonable. Our specific concerns are as follows:

1. A substantial portion of this increase is to offset new "infrastructure" costs. It is not clear what those costs include, and we are concerned that some of the costs do not directly relate to the water and sewer infrastructure of Anthem.
2. Based on comments by AZAWC in the local newspapers, part of the rate increase is to offset past losses due to their use of overly optimistic growth forecasts for Anthem in determining their initial rates. Actual growth rates for Anthem have exceeded initial Del Webb forecasts, and build-out is scheduled much earlier than originally anticipated. These conditions should lead to greater PROFITS for AZAWC, not losses. Therefore, we have serious doubts that the real cause of AZAWC's losses has much to do with the growth forecasts.
3. There were also comments by AZAWC in these newspapers that rates could be REDUCED in the future depending on the actual growth of Anthem. We would certainly like to see a very strong commitment to future rate reduction as a condition of any current rate increase, including more specific conditions clearly spelled out by AZAWC and ACC.
4. Finally, based on comments by AZAWC in the local newspapers, it appears that AZAWC is requesting a relatively high profit margin in this rate increase.

Thank you in advance for protecting our interests and handling this matter to the best of your ability.

Sincerely,

RE: Docket number WS-01303A-02-0870, Arizona-American Water Company Rate Increase

To Whom It May Concern:

We are residents of Anthem, Arizona, and as such, subscribers to the services of Arizona-American Water Company. It has recently come to our attention that you are looking into the pending rate increase which has been requested by Arizona-American Water Company.

We are contacting you today to express our concern over this rate increase. Based on the information we have received, we are concerned that the rate increase requested is not reasonable. Our specific concerns are as follows:

1. A substantial portion of this increase is to offset new "infrastructure" costs. It is not clear what those costs include, and we are concerned that some of the costs do not directly relate to the water and sewer infrastructure of Anthem.
2. Based on comments by AZAWC in the local newspapers, part of the rate increase is to offset past losses due to their use of overly optimistic growth forecasts for Anthem in determining their initial rates. Actual growth rates for Anthem have exceeded initial Del Webb forecasts, and build-out is scheduled much earlier than originally anticipated. These conditions should lead to greater PROFITS for AZAWC, not losses. Therefore, we have serious doubts that the real cause of AZAWC's losses has much to do with the growth forecasts.
3. There were also comments by AZAWC in these newspapers that rates could be REDUCED in the future depending on the actual growth of Anthem. We would certainly like to see a very strong commitment to future rate reduction as a condition of any current rate increase, including more specific conditions clearly spelled out by AZAWC and ACC.
4. Finally, based on comments by AZAWC in the local newspapers, it appears that AZAWC is requesting a relatively high profit margin in this rate increase.

Thank you in advance for protecting our interests and handling this matter to the best of your ability.

Sincerely,

RE: Docket number WS-01303A-02-0870, Arizona-American Water Company Rate Increase

To Whom It May Concern:

We are residents of Anthem, Arizona, and as such, subscribers to the services of Arizona-American Water Company. It has recently come to our attention that you are looking into the pending rate increase which has been requested by Arizona-American Water Company.

We are contacting you today to express our concern over this rate increase. Based on the information we have received, we are concerned that the rate increase requested is not reasonable. Our specific concerns are as follows:

1. A substantial portion of this increase is to offset new "infrastructure" costs. It is not clear what those costs include, and we are concerned that some of the costs do not directly relate to the water and sewer infrastructure of Anthem.
2. Based on comments by AZAWC in the local newspapers, part of the rate increase is to offset past losses due to their use of overly optimistic growth forecasts for Anthem in determining their initial rates. Actual growth rates for Anthem have exceeded initial Del Webb forecasts, and build-out is scheduled much earlier than originally anticipated. These conditions should lead to greater PROFITS for AZAWC, not losses. Therefore, we have serious doubts that the real cause of AZAWC's losses has much to do with the growth forecasts.
3. There were also comments by AZAWC in these newspapers that rates could be REDUCED in the future depending on the actual growth of Anthem. We would certainly like to see a very strong commitment to future rate reduction as a condition of any current rate increase, including more specific conditions clearly spelled out by AZAWC and ACC.
4. Finally, based on comments by AZAWC in the local newspapers, it appears that AZAWC is requesting a relatively high profit margin in this rate increase.

Thank you in advance for protecting our interests and handling this matter to the best of your ability.

Sincerely,
